Web Solutions

Building resilient, web-based solutions on Azure
with Azure App Service

Java (Spring)

.NET

Node.js

How do I host a PHP web app in Azure?

Ruby on Rails

Python

(Container)

Web solution architecture

Azure App Service

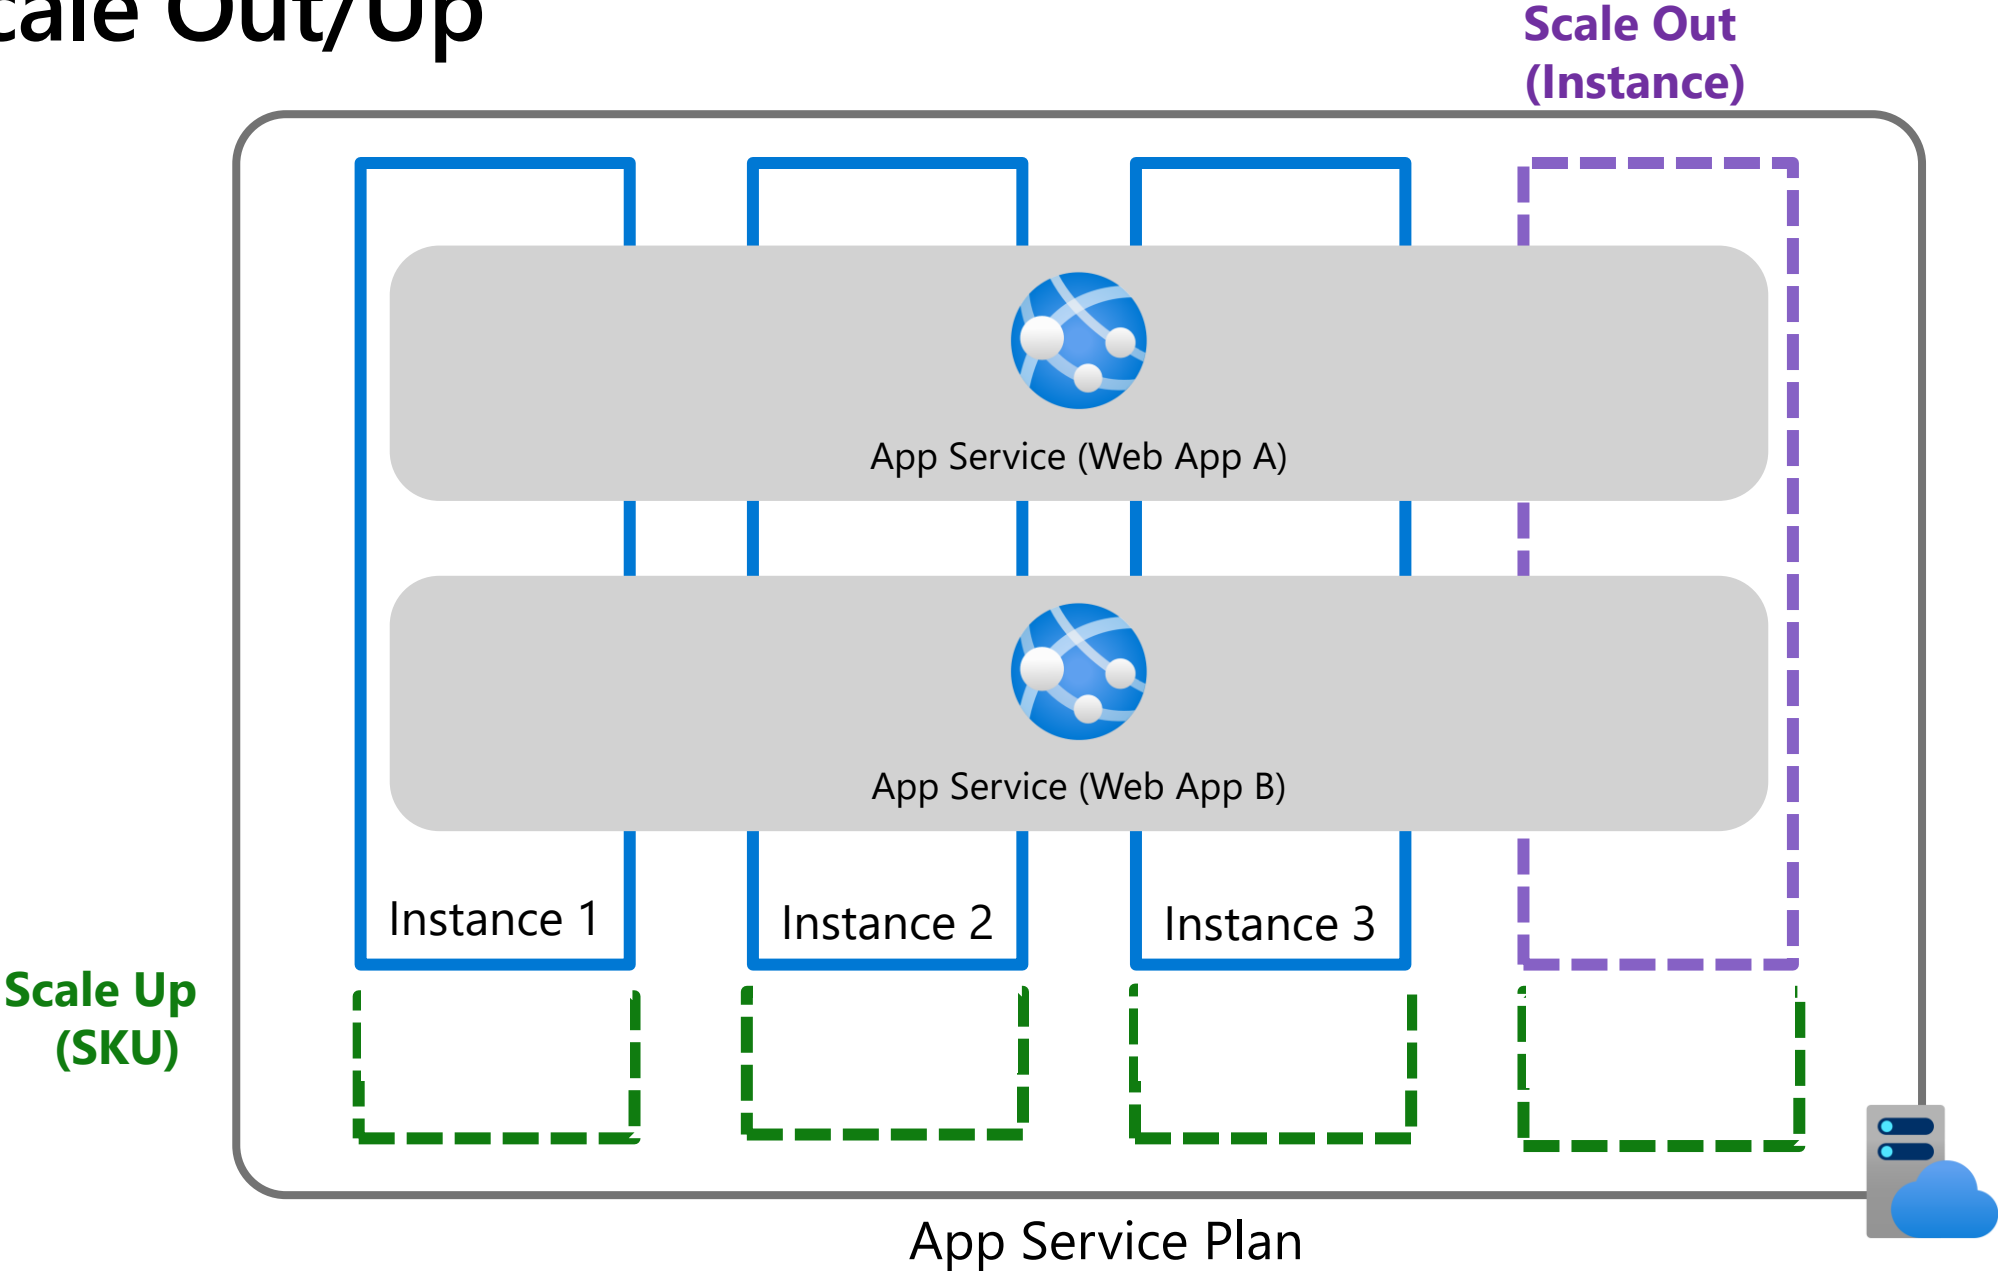

App Service
(Web App)

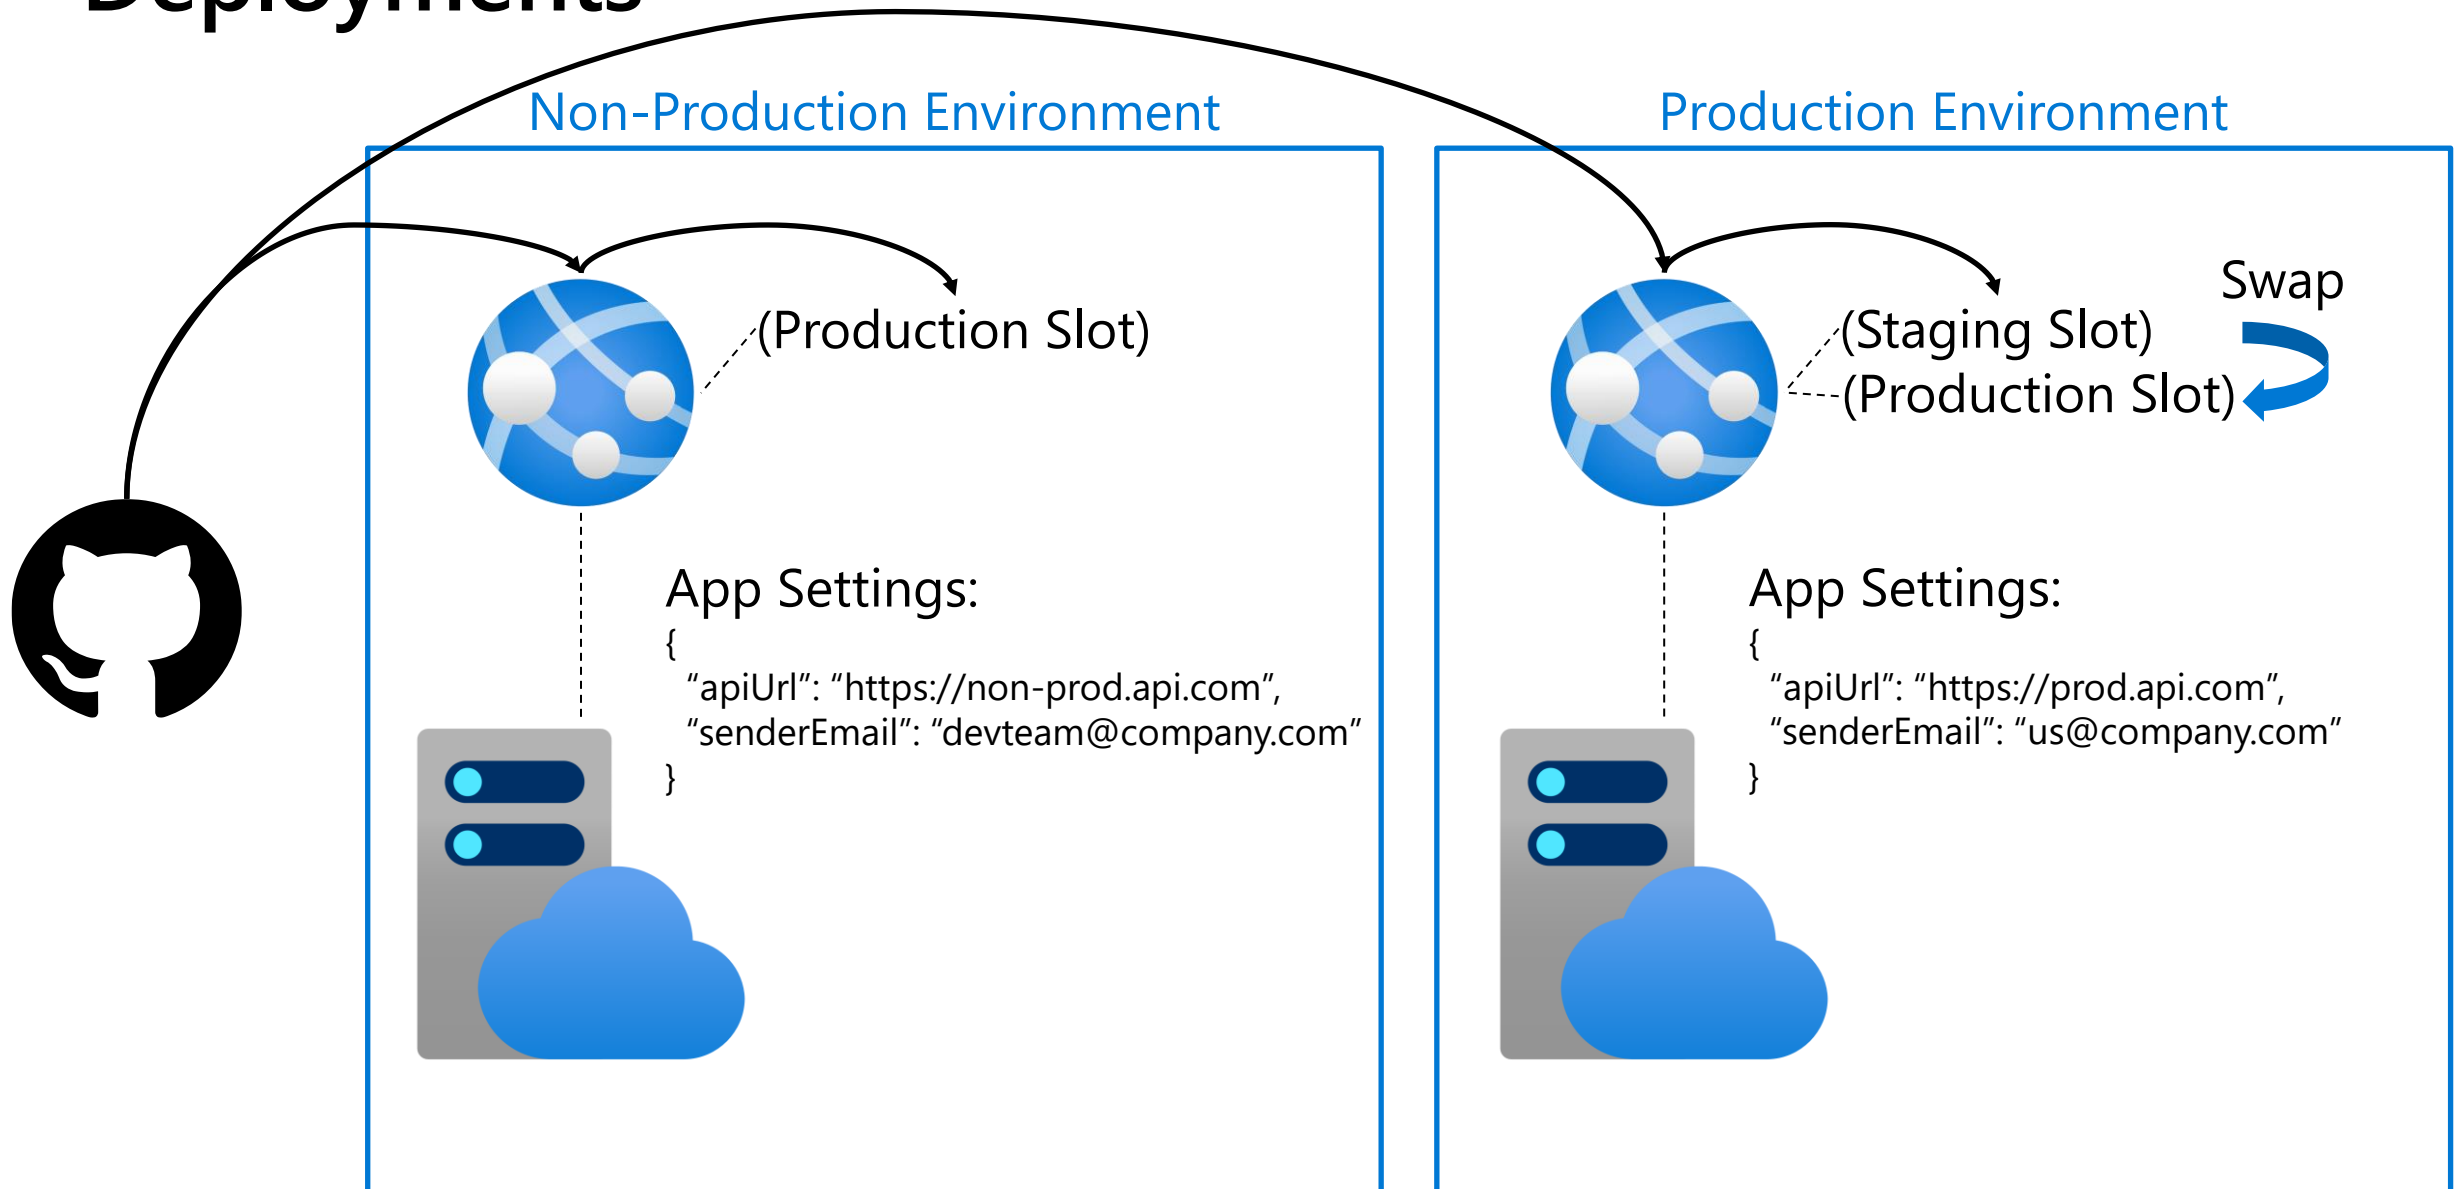

App Service Plan

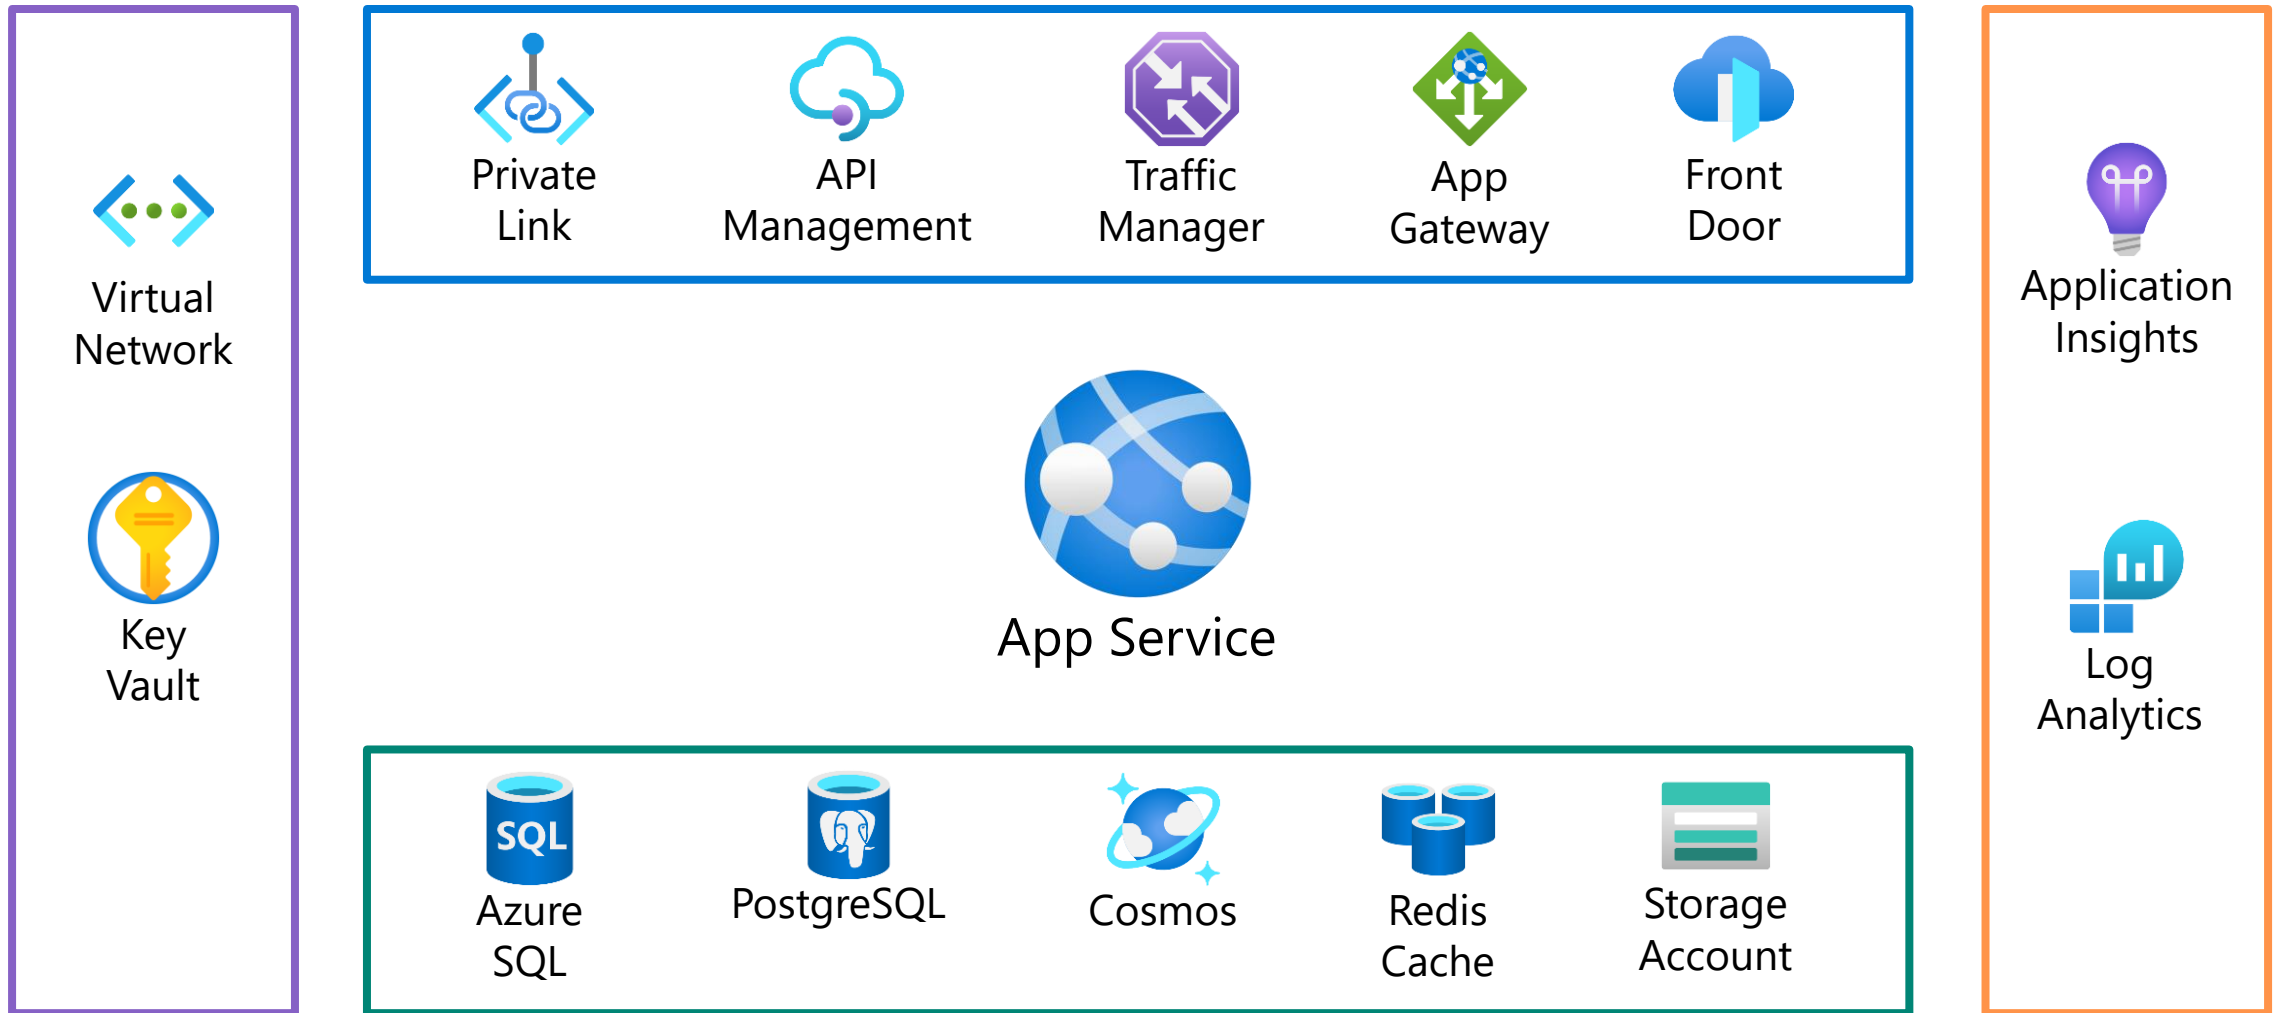

Scale Out/Up

Deployments

Additional Services

Application hosting continuum

Virtual Machines

Azure Kubernetes Service

Azure Container Apps

Azure Spring Apps

Azure App Service

Azure Functions

Azure Logic Apps

Power Apps

More Control of execution environment

Less Control of execution environment

Less Agile development & deployment

More Agile development & deployment

Thank you!

Sign up for Microsoft.Source

Receive a regular digest of relevant technical content, events and training

Get the best of the newest resources, tools and guidance to help developers quickly build and deploy on Azure

Get the latest articles, documentation, and events from Microsoft.Source—the curated monthly developer community newsletter.

Stay at the forefront of rapidly evolving technologies with resources that are relevant to your field, location, and areas of interest—including articles, GitHub repositories, and how-to guides.

Get notified about events—from local hacks, workshops, and training sessions to virtual meetups and global conferences.

Learn what you want, when you want, how you want. Resources include in-person hands-on workshops, free, interactive online training and sandbox environments.
